Edit Submission

Welcome to the 7th International Conference on Advances in Civil Engineering (ICACE2024). Please have your abstract submitted by deadline.

Paper ID: 1150

TITLE AND ABSTRACT

* Title

* Abstract

This is a guideline of step-by-step instructions for submitting full paper in the microsoft CMT platform. As it does not have separate segment for abstract we had to collect abstract like a normal paper submission. Luckily the platform offers multiple file submission for one submission ID. So, we are using the same submission to take multiple files. The step of submitting full paper is:
 Il paper document:

 Access Your Existing Submission:

3872 characters left

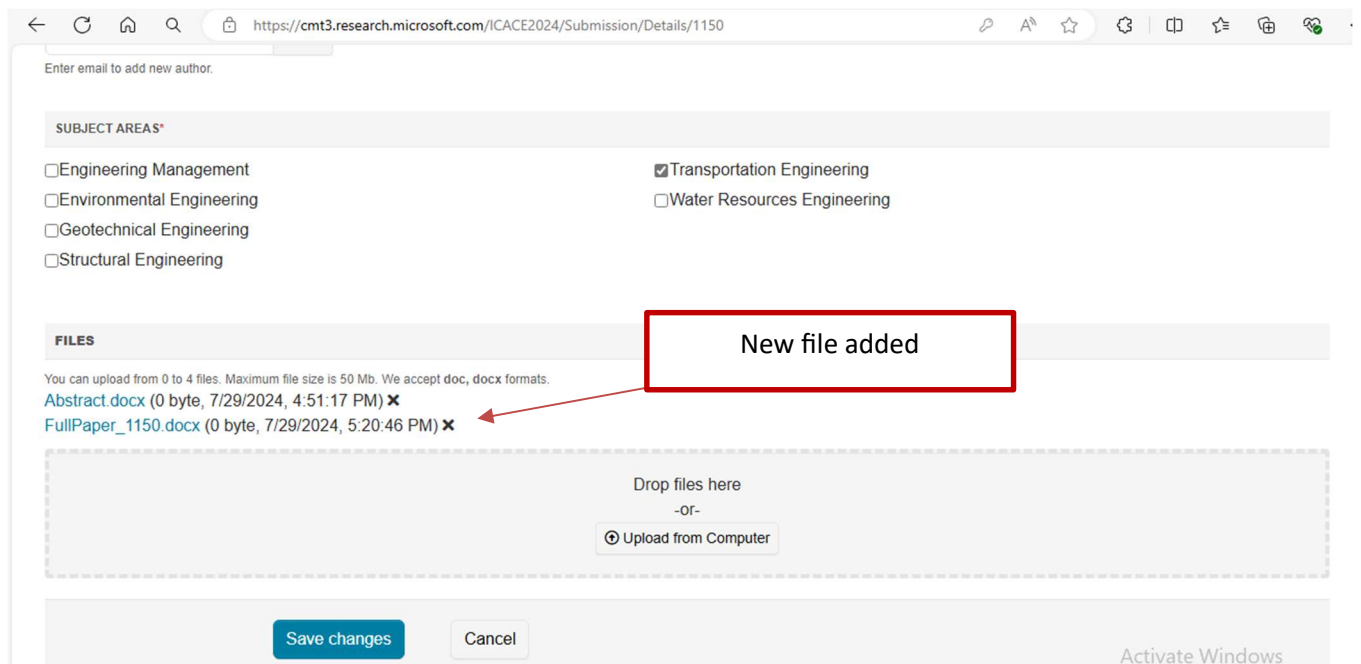

Scroll
Down

Activate Windows

2. Upload your full paper document (in DOCX format).

3. Name the document as follows: Fullpaper_paperid.docx, where “paperid” represents your submission’s unique identifier.

d) Submit the Changes:

1. After uploading the full paper, review your submission details.
2. Confirm that both the abstract and full paper are correctly attached.
3. Save your changes.
